

LONDON TRANSPORT SERVICE VEHICLES

FLEET INFORMATION

Part 2c - Details - Leased Vehicles 6000 to 7999

Issue 1 - March 2015

Contents

Page	
2	Introduction
3	Leased Vehicles numbered 6000 to 7999

IntroductionAbout this document

This document contains a detailed list of the service vehicles operated by London Transport, its successors and associated companies. It is one of several that take their information from the LTSV website (www.ltsv.com) and is updated to 1st March 2015. The other documents can also be downloaded from the LTSV website and include the following:

- **Part 1** gives a basic list of all known service vehicles
- **Part 3** contains the captioned photographs that have been published on the website (broken down into sections due to size)
- **Part 4** has a list of service vehicle locations and also the news and forum sections from the website

LTSV has accumulated a large amount of information over the years. By making these documents available for download it is hoped that the content can be preserved even if something happens to me or my website.

This document will be re-issued perhaps once or twice a year with updated content. However, for the latest information, please refer to www.ltsv.com.

Whilst part 1 lists the basic details of all vehicles in a tabular format, this part gives more detail and hence uses a single table for each vehicle. The additional information comprises:

- Chassis and body numbers (where known).
- Supplier and disposal details (where known).
- Notes. *This includes items added by contributors to LTSV*
- History. *This will eventually cover the allocations, transfers and other changes that affected each vehicle*

The tables also include a small photograph, where one has been published on LTSV. Note that these photos are included as a guide only and are of low resolution. Larger copies of the photos can be found in the part 3 documents (refer to the number shown underneath each photo to locate it) or on the LTSV website.

Not included are additional photos of each vehicle (except in a few cases where the appearance changed markedly), the licensing dates or the sightings reported. All of these can be found on the website.

The addition of vehicle histories is an ongoing task at present, and many vehicles do not yet have any (or complete) entries. Coverage of the period 1946 to 1982 is virtually complete, other periods are in progress. The sources of the allocation information are either official documents or observations. The former sometimes presents anomalies, such as a vehicle being listed as moving from A to B and then later from C to D. Such instances are notated as 'non-contiguous'. There are also entries that may appear to be duplicated. For example, if two official lists dated 01/01/1961 and 01/01/1962 both showed a vehicle as being allocated to X, both will appear.

If you find any errors in this document, or have any additional information, please get in touch using e-mail tom@ltsv.com.

Thomas Young, Abbey Wood, March 2015

	Operator	LBSL	Livery	Red/Orange/Yellow
	Date in	16/02/2011		
	Date Out	01/2015 to BCA Birmingham		
	Notes	These vehicles ARE listed on DVLA but as Mercedes-benz rather than Mercedes! This is not an uncommon issue. The way to track them down is to use a website like mycarcheck.com to look-up the registration. This will show the make and model (also useful for the database!). Put the exact make given into the DVLA website (with the reg) and you will get the dates. Simples.. Auctioned at BCA Birmingham 30/1/2015. Replaced by 7868M.
